SIMSG ISSMGE

Paris, France

Professor Jean-Louis Briaud is President of ISSMGE, the International Society for Soil Mechanics and Geotechnical Engineering and Buchanan Chair Professor at Texas A&M University. He recently travelled to Paris, France (13-14 May, 2011) to visit with the Organizing Committee of the 2013 International Conference on Soil Mechanics and Geotechnical Engineering. This conference promises to be a very interesting one in a city which has much appeal for all. The meeting was attended by many dignitaries including the president of the Commite Francais de Mecanique des Sols, Philippe Mestat, the past president, Alain Guilloux, and the ISSMGE Board member, Roger Frank. Much was achieved during the meeting and the ISSMGE President left convinced that the next ICSMGE was in very good hands. He thanked the organizing committee accordingly.
